Crear proyecto

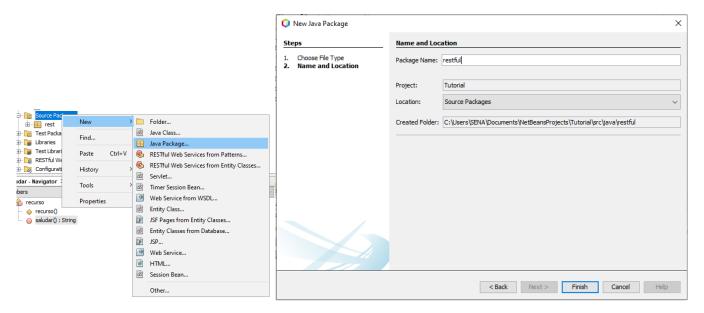

Agregar Librerias

- Jersery 2.5.1
- Jax-rs 2.0
- Gson
- Commos-lang3
- Mysql-connector
- Java ee 7 api library

Crear primer rest

Crear paquete

Crear clase aplicación y clase recurso

```
import javax.ws.rs.Produces;
import javax.ws.rs.core.MediaType;

package restful;

import javax.ws.rs.ApplicationPath;
import javax.ws.rs.core.Application;

@ApplicationPath("api")
public class Application extends Application {

@Froduces(MediaType.TEXT_PLAIN)
public String saludar() {
    return "hola mundo";
}

}
```
